EDUCATION

University of Central Florida

- Bachelor of Science in Information Technology
- Minor - Cybersecurity and Networks
- Awards - President's List (Fall 2023, Spring 2023, Fall 2022) / Florida Bright Futures / National Scholars Award / Dean's List (Fall 2024, Spring 2023, Fall 2022)

Graduated May 2025

SKILLS & CERTIFICATIONS

- Security & Software Tools - (Nmap, Burp Suite, Wireshark, Kali Linux, Nessus, Metasploit)
- Certifications - (CompTIA Security+, AWS Academy Cloud Security Foundations, AWS Academy Cloud Foundations, TestOut IT Fundamentals Pro)
- Virtualization & Monitoring Tools - (OpenVAS, Trivy, VMware, Splunk, VirtualBox)
- Programming & Scripting - (Python, Java, C++, SQL, PowerShell, Bash, JavaScript)
- Networking - (TCP/IP, DNS, VPN, Cisco Packet Tracer, AWS, Azure)
- Cloud & Infrastructure Security - (Virtual Machines, Information Security, Risk Management, Cloud Security Principles)
- Security & Compliance Frameworks - (ISO/IEC 27001, NIST, SOC 2, HIPAA, GDPR)
- System Administration - (Windows Server, Linux, Unix, Ubuntu, macOS, iOS)

PROFESSIONAL EXPERIENCE

Seasonal Technical Consultation Agent

Nov 2024 - Jan 2025

Geek Squad · Seasonal Role

Melbourne, FL

- Conducted vulnerability scans and assisted customers in securing their devices with antivirus solutions to mitigate network risks.
- Installed, configured, and repaired software, performed data backups, and optimized system performance, improving overall store efficiency.
- Explained technical problems and solutions in an accessible manner to enhance customer satisfaction, contributing to a 20% increase in customer loyalty.

PROJECTS

- **Three-Tier Distributed Database Application - (Java / HTML / Apache Tomcat)**
 - Collaborated on the logic aspects of a database application that helped find a way for users to interact more while documenting users' data and securing task written in Java and SQL using Apache Tomcat to run the server.
- **SecurePOS Application - (Python)**
 - A Python-based Self-Checkout Assistant program that allows users to add products, calculate totals, apply discounts, and generate receipts while also including features such as data persistence, and securely saving transaction history.
- **GuardianTask Application - (Java / GUI)**
 - Developed an App that assigns and secures notes for users' written in Java using GUI. The App provides a level of protection using multi-factor authentication, strong passwords, and backups.
- **CipherCart Application - (Java / GUI)**
 - Engineered an App from scratch with 5 of my IT colleagues using Java to create a GUI platform that selects, stores, and manages items. The App lets you buy, change quantities, and get the overall total cost securely.

ACADEMIC INVOLVEMENT

- **UCF Collegiate Penetration Testing Competition (CPTC) – Competitor** **May 2024**
 - Worked on several projects involved bridging and addressing the gap in cybersecurity skills by educating other college students on technology, communication, and collaboration.
- **Hack @ UCF – Secretary** **Jan 2023**
 - Joined UCF's #1 cybersecurity club to learn more about network security fundamentals and concepts as well as familiarize myself with topics relating to information security and cloud computing.
- **Capture the Flag Cyber Competition – (CTF) Competitor** **Nov 2022**
 - Participated in all sorts of challenges and tasks that involved going through various sub-domains to find a hidden file or a piece of information known as the flag in a reasonable time frame.
- **National Society Of Leadership & Success (NSLS) – Committee Member** **Aug 2022**
 - Involved in numerous leadership and success-related projects and meetings to create better connections and improve my networking skills among students/colleagues all around UCF.
