EDUCATION

University of Central Florida

- Bachelor of Science in Information Technology   **Expected Graduation: May 2025**
- Minor - Cybersecurity and Networks   **GPA: 3.4**
- Awards - President's List: (Fall 2023, Spring 2023, Fall 2022) - Florida Bright Futures - National Scholars Award - Dean's List: (Fall 2024, Spring 2023, Fall 2022)

SKILLS & CERTIFICATIONS

- Security & Software Tools - (Nmap, Wireshark, Metasploit, Kali Linux, Splunk, VMware)
- Certifications - (CompTIA Security+, AWS Academy Cloud Security Foundations, Test Out IT Fundamentals Pro)
- Programming & Scripting - (Python, Java, C++, SQL, PowerShell, Bash, JavaScript)
- Networking - (TCP/IP, DNS, VPN, Cloud Security, AWS, Azure)
- Cloud & Infrastructure Security - (Infrastructure Security, Infrastructure as Code, Virtual Machines, Containers)
- Security & Compliance Frameworks - (ISO27001, Information Security, NIST, ISO/IEC 27000 Series, SOC2, Risk Management)
- System Administration - (Windows Server, Linux, Unix, Ubuntu, IOS, MacOS)

PROFESSIONAL EXPERIENCE

Seasonal Technical Consultation Agent   Nov 2024 - Jan 2025
Geek Squad · Seasonal Role   Melbourne, FL

- Conducted vulnerability scans and assisted customers in securing their devices with antivirus solutions to mitigate network risks.
- Installed, configured, and repaired software, performed data backups, and optimized system performance, improving overall store efficiency.
- Explained technical problems and solutions in an accessible manner to enhance customer satisfaction, contributing to a 20% increase in customer loyalty.

PROJECTS

- ***Three-Tier Distributed Database Application***
  - Collaborated on the logic aspects of a database application that helped find a way for users to interact more while documenting users' data and securing task written in Java and SQL using Apache Tomcat to run the server.
- ***To-Do List GUI Application***
  - Developed an App that assigns and secures notes for users' written in Java using GUI. The App provides a level of protection using multi-factor authentication, strong passwords, and backups.
- ***Shopping Cart GUI Application***
  - Engineered an App from scratch with 5 of my IT colleagues using Python and Java to create a GUI platform that selects, stores, and manages items. The App lets you buy, change quantities, and get the overall total cost securely.

ACADEMIC INVOLVEMENT

- ***UCF Collegiate Penetration Testing Competition (CPTC) – Competitor***   *May 2024*
  - *Worked on several projects involved bridging and addressing the gap in cybersecurity skills by educating other college students on technology, communication, and collaboration.*
- ***Hack @ UCF – Secretary***   *Jan 2023*
  - Joined UCF's #1 cybersecurity club to learn more about network security fundamentals and concepts as well a familiarize myself with topics relating to information security and cloud computing.
- ***Capture the Flag Cyber Competition – (CTF) Competitor***   *Nov 2022*
  - Participated in all sorts of challenges and tasks that involved going through various sub-domains to find a hidden file or a piece of information known as the flag in a reasonable time frame.
- ***National Society Of Leadership & Success (NSLS) – Committee Member***   *Aug 2022*
  - Involved in numerous leadership and success-related projects and meetings to create better connections and improve my networking skills among students/colleagues all around UCF.
